

Eye Dr visit in February

Eye Dr visit in February was a success over 70 people were able to get their eyes tested. Please check in with Allison to pick up your eye glasses. Thank you to all for making this a success.

-Allison

Allison is now over seeing Jordan's Principle for McLeod Lake Indian Band. If any of the bands kids require anything for success in school, health, mental health, therapies, dental, medical devises, eyeglasses, ext. and these costs are not covered elsewhere, please contact Allison to ensure they get what they need.

Currently a group request is going in for testing that the school board recognizes. The school system has too long of a wait list and many of our kids are falling through the cracks. We are looking at having Jordan's Principle bring up a private company to test all kids on rez and any status kids in Mackenzie that would like to join in this request. If a learning disorder is diagnosed, the school is able to adapt the learning to the child. This independent learning plan can also follow your child to college, allowing for further success in their adult life. If there is a learning disorder identified, you may qualify for a larger Child Tax credit each month, to help support your child's needs appropriately.

Thanks!

Any questions or to add your child's name to the list, please contact Allison at the band hall.
