

Subject: **Certified Flaggers needed**

We are looking for two flaggers to control traffic during the unloading of Safeguard materials along the Rainbow FSR. Current estimates are a 20 day period, working 7 am to 7 pm. The start date is contingent on permits, but most likely during late March/April. They would be staying in Blue Stain Camp, and function as part of the Safeguard crew and under their supervision.

Please forward Resumes to myself.  
Thank you.
