SUBSTANCE ABUSE POLCIY

McLeod Lake Indian Band (MLIB) is committed to providing a safe, drug and alcohol-free workplace. This Policy Shall:

1. Define Alcohol and/or Drug Dependence
2. Define Recreational Use
3. Discuss Drug and/or Alcohol dependency
4. Provide contractors with a set of expectations
5. Provide guidelines for the Accommodation Process

Policy Statement

MLIB prides itself on providing a safe working environment for all of its employees and contractors. Employees and/or Contractors under the influence of drugs or alcohol on the job can pose serious safety and health risks both to themselves and their co-workers

To help ensure a safe and healthy workplace, MLIB reserves the right to prohibit certain items and substances from being brought on to, or being present on company premises or job sites. MLIB also strictly prohibits the use of non-prescribed drugs or alcohol during work hours and contractors are further prohibited from reporting to work while under the influence of drugs or alcohol

Contractors who fail to adhere to the above expectations or who engage in illegal activities such as selling drugs and/or alcohol while on MLIB premises will be subject to disciplinary action up to and including termination of employment and referral to legal authorities

Definitions

Drug and/or Alcohol Dependency: is defined as a mental, physical or psychological dependence on drugs and/or alcohol that is considered as a mental, physical, and psychological disability and under Human Rights Law

Recreational Drug and/or Alcohol Use: with recreational use of drugs and/or alcohol, there is no mental, physical or psychological dependence, therefore, this is not considered a mental, physical or psychological disability under Human Rights Law

Drug and/or Alcohol Dependency

MLIB understands that contractors may develop a chemical dependency to certain substance and that this is defined as a mental, physical and psychological disability. MLIB promotes the early diagnosis of this disability and encourages contractors with a dependency on alcohol or drugs to pursue medical and/or psychological treatment

Any contractor who suspects that he/she might have an emerging drug or alcohol problem is expected to seek appropriate treatment promptly from one of the many resources in the community or contact the McLeod Lake Indian Band Family and Health department

MLIB defines a rehabilitated drug user, alcoholic, or any individual engaged in a supervised drug or alcoholism rehabilitation program that is no longer using drugs or alcohol, as an employee with a disability

All medical information shall be kept confidential by MLIB

EXPECTATIONS:

Management

- Shall identify any situations that may cause concern regarding a land steward's ability to safely perform their job functions
- If it is known or ought to have been known that a contractor has a substance dependency, the employer shall accommodate the contractor to the point of undue hardship
- Shall ensure any contractor who asks for help due to a drug or alcohol dependence will not be disciplined for doing so

Contractors

All contractors are expected to abide by the provisions of this policy

Contractors are encouraged to communicate to their employer that they have a dependency or have had a dependency so that their rights are protected and they can be accommodated appropriately

Accommodation Process

During the accommodation process, MLIB will respect the dignity and privacy of the individual requesting accommodation. During this time, the following actions may occur:

- The contractor may take a leave of absence to seek assessment and treatment for a drug and/or alcohol dependency;
- The contractor will be allowed to return to work upon rehabilitation; and

- Disclose previous problems with a drug and/or alcohol dependency only if it is relevant to their current job duties;
- Provide medical documentation to confirm they have a drug and/or alcohol dependency; and fully cooperate with the recommendations of professional assessments
